

5 Ways to Hook High-Value Guests Before They Leave Your Site

Proven tactics for converting travelers in seconds — before they book somewhere else.

1. Offer Instant Sign-Up Rewards

Don't make travelers wait for their first reward. Use instant incentives such as digital gift cards or on-the-spot upgrades to encourage loyalty program enrollment. **Example:** A hotel offers a \$25 Engage2Reward™ Choice Card instantly upon sign-up, redeemable for retail, dining, or entertainment.

2. Use “Book Now” Bonuses

Capitalize on urgency by giving guests an immediate perk when they complete a booking within a set timeframe. **Example:** Airlines offering a free seat upgrade or airport lounge pass for bookings made within 24 hours.

3. Personalize Rewards to Guest Profiles

Segment offers based on traveler type — business, leisure, relocation — and align rewards with their priorities. **Example:** Corporate travelers receive dining gift cards; families receive attraction passes.

4. Bring Back Lapsed Guests with Instant Value

Reactivation campaigns are more effective when there's no delay. Offer a welcome back reward to guests who haven't booked in a while. **Example:** “We've missed you! Here's \$50 toward your next stay — book within 7 days.”

5. Create Cross-Brand Reward Partnerships

Partner with retailers, restaurants, and entertainment brands to give travelers more options and keep them engaged. **Example:** A hotel chain offers guests points toward retail gift cards when they dine at partner restaurants.

Why Instant Digital Rewards Work

- Immediate Gratification: Keeps travelers engaged before they navigate away.
- Choice & Flexibility: Lets guests pick the reward that motivates them most.
- Faster Conversions: Removes the wait time that can cause drop-off.

Get Started with Instant Rewards

The Engage2Reward Choice Card integrates seamlessly into your booking or loyalty program — delivering instant, flexible rewards that hook high-value guests before they click away.
